

Editor-in-Chief  
World Journal of Stem Cells

Dear Editor-in-Chief,

On behalf of the co-authors, I am submitting the manuscript entitled “Role of CXCR4-SDF1-HMGB1 Pathway on the Directional Migration of Cells and Regeneration of Affected Organ”. However, the submission process required English Editing Certificate.

Here, I would like to mention that it is an invited manuscript and we have experience of publishing scientific articles for more than one decade. Our strength of publication can be found in the ORCID ID provided during submission. Moreover, we don't have any active grant that could cover our English Editing charges or any other publication charges. Hence, I would like to request you to consider our review article without any English Editing Certificate.

Sincerely yours,

Nazmul Haque, Ph.D.
