## Epidemiology of perforated peptic ulcer: age- and gender ...

<https://pubmed.ncbi.nlm.nih.gov/23372356>

**Aim:** To investigate the epidemiological trends in incidence and mortality of **perforated peptic ulcer** (PPU) in a well-defined Norwegian population. **Methods:** A **retrospective, population-based**, single-center, consecutive cohort **study** of all patients diagnosed with benign **perforated peptic ulcer**. Included were both gastric and duodenal **ulcer** patients admitted to Stavanger University Hospital ...

## Epidemiology of perforated peptic ulcer: Age- and gender ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3554818>

Jan 21, 2013 · Definitions. Incidence calculations: The crude incidence is the number of new cases of **perforated peptic ulcer** in our region per 100 000 persons per year. The adjusted incidencerates are the crude rates adjusted for age and gender vs the total Norwegian population using Statistics Norway. The crude death rate is the total number of deaths in the **study** population per 100 000 persons per year.
