SPECIFIC COMMENTS TO AUTHORS

Thank you for preparing the literature review specific for gastroenterology on this topic. I enjoyed the paper, and found it quite informative. It will have a good impact as it is very timely. Of course the literature will also be rapidly changing in this field as more about COVID 19 is understood. Something to consider that may enhance the paper is a summary table of the key points. This will immediately catch a readers attention, and focus on the most important conclusions. A summary of GI manifestations, and recommendations for endocopy and PPE would be excellent to glance at quickly.
