

Dear Editors and Reviewers,

Thank you for the evaluation of our invited manuscript (NO.: 55537) entitled "Sonographic evaluation of prostatic artery embolization. Far beyond size measurements".

We herein submit our revised manuscript, according to your kind comments and instructions.

We have provided all the original figures using PowerPoint, so that all their parts can be reprocessed. We additionally submit the figures in Photoshop format, with their parts in separate layers, so that each figure part and associated symbol, letter etc is fully editable.

We have carefully re-reviewed our manuscript and made additional minor corrections in its format, in order to fully conform to the Requirements and Guidelines for Revision of Minireviews.

In our revision we additionally provide an Audio Core Tip, and the other documents requested by the editors.

We sincerely hope that our revised manuscript meets the high standards of "World Journal of Radiology" and we are looking forward to receiving your final decision.

Best regards,

The authors
