

Piraeus, May 2, 2020

Dear Editors,

Regarding the Non-Native Speakers of English Editing Certificate, I, Hippocrates Moschouris, first and corresponding author of the manuscript entitled '*Sonographic evaluation of prostatic artery embolization. Far beyond size measurements*', which has been submitted as invited minireview to World Journal of Radiology (manuscript NO: 55537), confirm that, as a son of a British citizen (mother: Maria-Theodora Moschouri), use both English and Greek, as native languages. I can submit documents confirming the citizenship of my mother to your journal, if required.

Hippocrates Moschouris

A handwritten signature in blue ink, consisting of stylized, overlapping loops and lines, positioned below the printed name. The signature appears to be a cursive representation of the name 'Hippocrates Moschouris'.
