

Informed consent statement

Title: *Expression and diagnostic value of HE4 in esophageal squamous cell carcinoma*

First author and affiliations: Shi-Yuan Liu, Department of Thoracic Surgery, Second Affiliated Hospital of Xi'an Jiaotong University, Xi'an 710004, Shaanxi Province, China

Name of Journal: *World Journal of Gastrointestinal Oncology*

ESPS Manuscript NO:

Informed consent statement:

Patients were not required to give informed consent to the study because the analysis used anonymous clinical data that were obtained after each patient agreed to treatment and postoperative pathological examination by written consent. Individuals can't be identified according to the data presented.

Sincerely,

Shiyuan Liu
