

10<sup>th</sup> July 2020

Dear reviewers,

**RE: Manuscript ID 05072490**

Thank you for your comments for our manuscript. We have addressed them with the following actions:

- 1) We have substantially cut the manuscript down to less than 2000 words to reflect an editorial rather than a review. This includes removal of Table 1.
- 2) A short section on the microbiome is included with the appropriate reference suggested
- 3) References now include DOI and PMID number if available
- 4) Figure 1 is included as a separate image. This was produced using a software package called Biorender and therefore we are unable to include the separate arrows and word boxes in a power point document as requested.
- 5) Authors contributions are also included at the end of the manuscript.

I hope these changes are satisfactory for publication in your journal.

Yours sincerely

Paul Ellis and Alice Turner.
