## Management of Mucin-Producing Cystic Neoplasms of the ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3806054>

Clinical Presentation. Cystic lesions of the pancreas are much more common than previously appreciated and are increasingly diagnosed as a result of the more frequent use of imaging tests and advances in imaging techniques []. Pancreatic cystic lesions include inflammatory pseudocysts, benign serous tumors, mucinous neoplasms [], cystic neuroendocrine tumors, and other rarer lesions.

## [Serous Cystadenoma of the Pancreas](#)

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC1357749>

The present, more contemporary, series describes the largest **single-center experience** with **pancreatic** serous **cystadenoma**. Our work confirms the benign nature of this tumor and its preponderance in women in the seventh decade of life. Our data also show that the mean age of men with serous **cystadenoma** is more than 7 years older than that of women.
