2 Center for Nuclear Medicine Clinical Center of Serbia, Faculty of Medicine University of
Belgrade

3 Clinic for Endocrinology, Diabetes and Metabolic Diseases, Faculty of Medicine, University of
Belgrade

4 University Children's Clinic, Belgrade

Informed consent statement: Patients were not required to give informed consent to the study
because the analysis used anonymous data that were obtained after each patient agreed to
diagnosis and treatment by written consent, as well as agreed that his anonymous data can be
used for scientific and educational purposes.

Sincerely,

Vera Artiko
