

Dears Editor and reviewers

We wish you were well.

As requested, we, authors of manuscript 56750, modified the Abstract and added PMID and DOI in the references used by us for the study. Only two articles used by us were published in local university journals and therefore do not have PMID or DOI.

We update our manuscript according to the Guidelines and Requirements for Manuscript Revision and the Format for Manuscript Revision for 'Case Control Study'.

We also wrote the "article highlights" section at the end of the main text.

We wish to thank for our article being under consideration for publication.

Best regards,
