### Cardiovascular Disease and Type 2 Diabetes: Has the Dawn ...

<https://care.diabetesjournals.org/content/40/7/813> ▾

Jul 01, 2017 · Hyperglycemia is the major risk factor for microvascular complications in patients with type 2 diabetes (T2D). However, cardiovascular disease (CVD) is the principal cause of death, and lowering HbA1c has only a modest effect on reducing CVD risk and mortality. The recently published LEADER and SUSTAIN-6 trials demonstrate that, in T2D patients with high CVD risk, the glucagon ...
