Choriocarcinoma with lumbar muscle metastases: A case report

Li Pang, Xiao-Xin Ma

Abstract

BACKGROUND

Choriocarcinoma is a highly malignant trophoblastic tumor that presents with early symptoms similar to those of an ectopic pregnancy. Here we present a case of a suspicious ectopic pregnancy diagnosed by laparoscopic surgery in our hospital. We

Choriocarcinoma

Malignant Trophoblastic Cancer

Choriocarcinoma is a malignant, trophoblastic cancer, usually of the placenta. It is characterized by early hematogenous spread to the lungs. It belongs to the malignant end of the spectrum in gestational trophoblastic disease. It is also classified as a germ cell tumor and may arise in the testis or ovary.
