

ANSWERING REVIEWERS

November 6, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format

Title: c-Met Signaling in the Development of Tumorigenesis and Chemoresistance: Potential Applications in Pancreatic Cancer

Author: Daniel Delitto, MD; Eva Vertes-George, MD; Steven J. Hughes, MD; Kevin E. Behrns, MD and Jose G. Trevino, MD

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 5721

The manuscript has been improved according to the suggestions of reviewers:

1 Revision has been made according to the suggestions of the reviewer

(1) MET clarified as receptor protein, *c-met* clarified as gene locus and c-Met labeled when referring to signaling cascade

(2) Tables corrected with legend preceding table

(3) All abbreviations listed for each table

(4) Stain and magnification provided for figure 3

(5) All abbreviations listed for each figure

(6) Full form of c-Met used in introduction

(7) "As we will review" has been removed from p. 5, last paragraph, lines 4-6

(8) Information concerning other cancers has been minimized without sacrificing background information

2 References corrected to journal format

Sincerely,

Daniel Delitto, MD
