Science Editor:

- 1 Scientific quality: This is a minireview of the food-gut axis in cancer immunotherapy. The topic is within the scope of the WJG. (1) Classification: Grade C; (2) Summary of the Peer-Review Report: The study is interesting, and the manuscript is well-written. However, there are some spelling errors should be corrected. The questions raised by the reviewers should be answered; and (3) Format: There are 3 figures. A total of 84 references are cited, including 33 references published in the last 3 years. There are 5 self-citations. 2 Language evaluation: Classification: Grade B. The authors provided a personal language certificate. 3 Academic norms and rules: The authors provided the signed Conflict-of-Interest Disclosure Form and Copyright License Agreement. No academic misconduct was found in the CrossCheck detection and Bing search. 4 Supplementary comments: This is an invited manuscript. The study was supported by Italian Ministry of University and Research; and Italian Ministry of Health. The topic has not previously been published in the WJG. The corresponding author has published 2 articles in the BPG. This manuscript is the resubmission of Manuscript No. 53105 (Rejected). 5 Issues raised: (1) I found the authors did not provide the approved grant application form(s). Please upload the approved grant application form(s) or funding agency copy of any approval document(s); and (2) I found the authors did not provide the original figures. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor. 6 Re-Review: Not required. 7 Recommendation: Conditionally accepted.

- We agree with the science editor, the spelling errors have been corrected (highlighted in yellow), approval documents have been uploaded and the original figures have been provided in power point.
