#### **SPECIFIC COMMENTS TO AUTHORS**

In this review, The author presented an exhaustive update of current literature on the role of TIPS in the management of in portal hypertension patients with cirrhosis with emphasis on emerging indications of TIPS, evolving patient selection criteria, and technical aspects of the procedure, put forward future prospectives in the end. It is excellent that the algorithm for the management of hemorrhage diseases. But there is a little problem needs further improvement. 1. Some references format need to be adjusted. 2. In the end of this review, the author propose some future prosectives, it is recommended to select important content to expand.
