### [\[Pyogenic Granuloma of the Tongue in Chronic Graft Versus ...](#)

<https://pubmed.ncbi.nlm.nih.gov/9615106>

Introduction: The development of pyogenic **granuloma** of the tongue is rare. We **report** such a **case** in a **patient with chronic graft-versus-host** disease. **Case report:** A 5-year-old girl was treated with allogeneic bone marrow transplantation for aplastic anemia. Complications consisted in **chronic graft-versus-host** disease with cutaneous, mucosal and hepatic involvement.

### [\[Pyogenic Granuloma of the Tongue in Chronic Graft Versus ...](#)

<https://pubmed.ncbi.nlm.nih.gov/9615106>

Discussion: Six cases of **pyogenic granuloma** of the **oral cavity** in **chronic graft-versus-host disease** have been reported in the literature. Pyogenic **granuloma** must be considered in tumoral lesion of the **oral cavity of patients with chronic graft-versus-host disease**. All **patients** had erosive lichenoid **lesions** and were under cyclosporin; its role in the genesis of these lesions is debated. Treatment ...
