

PEER-REVIEW REPORT

Name of journal: World Journal of Transplantation

Manuscript NO: 57578

Title: Donor risk factors in pancreas transplantation

Reviewer's code: 04583289

Position: Peer Reviewer

Academic degree: MD

Professional title: Professor

Reviewer's Country/Territory: Malaysia

Author's Country/Territory: Spain

Manuscript submission date: 2020-06-20

Reviewer chosen by: AI Technique

Reviewer accepted review: 2020-06-21 04:26

Reviewer performed review: 2020-06-26 15:13

Review time: 5 Days and 10 Hours

SPECIFIC COMMENTS TO AUTHORS

Complications in pancreas transplantation I would like to congratulate the author as the study field is important, worthwhile and justifiable. The aim of the study is built on and address donor risk factors in pancreas transplantation complications in pancreas transplantation. There are rooms for further improvement. Line 49 whereby keywords were repeated twice, is it a typo? Line 69 -suggest to add reference at the end of sentence. "The postoperative complications inherent to pancreatic surgery (e.g. pancreatitis, fistulas, necrosis, etc.) appear similarly in pancreas transplantation. In addition, ischemia-reperfusion injury, immunological factors and immunosuppressive therapy increase the risk of their appearance." Line 87, reference is needed at the end of sentence "The largest published series of pancreas donors with ages ranging from 3 to 17 years was from the Wisconsin group." Line 122, reference is needed at the end of sentence. The proportion of donors over 50 years was less than 1% of total pancreas donors Line 131, suggest change to cause of death for the donor Line 254, Fulfillment the kidney transplantation criteria. (or Fulfillment the kidney and pancrease transplantation criteria) -Need to spell in full what is SPK for simultaneous pancrease kidney transplant at the beginning before started to use SPK -Line 247, need to add transplantation at the end of Patient selection for SPK[37,45] -Line 139 , the SPK should be placed at the back of simultaneous pancrease kidney(SPK) transplant. -Line 269, suggest to add "Before SPK transplantation, dialysis can be performed by hemodialysis (HD) or" Line 317 Radiological exams (need to spell in full)
