Dear Editors-in-Chief,

RE: *Malnutrition in cirrhosis: more food for thought*

Manuscript No: 57580

Manuscript Type: Review

Thank you for the valuable feedback provided by reviewers and the opportunity to revise and resubmit our manuscript for consideration for publication in the *World Journal of Hepatology*.

There were no specific points to address from Reviewer #1 or Reviewer #2.

The following revisions have been made as per issues raised by the Science Editor:

(1) The original figure was not provided

Response: Figure 1 has been deleted from the main text file, and uploaded as a separate file '57580-Figures.ppt' on the system. The figure has been provided as a powerpoint file, whose parts are all movable and editable.

(2) PMID and DOI were not included in the reference list

Response: I apologise that the PMID and DOI were not included in the original reference list. The PMID and DOI citations have now been updated throughout.

(3) Additional revision made by author:

I have also deleted Table 1 from the main text file, and uploaded as a separate file '57580-Tables.docx' on the system. The table is a word file whose parts are all movable and editable.

Once again, I thank you for considering this manuscript and look forward to hearing from you regarding the suitability of the paper for publication in *World Journal of Hepatology*.

Yours Sincerely,

Ms Brooke Chapman

Senior Dietitian, Liver Transplant Unit, Austin Health

PhD candidate, University of Melbourne
