SPECIFIC COMMENTS TO AUTHORS

1. The authors can rearrange the "CASE PRESENTATION" section as per the sub headings given in the journal's website; journal's case report article guidelines for manuscript preparation 2. In the "FINAL DIAGNOSIS" section, the authors have incorporated all the laboratory and imaging investigations. "Final Diagnosis" should include the diagnosis only. 3. The histopathological sub-type of the adenoma may be specified. 4. Many published literature including case reports and cases series of gallbladder adenoma are available. In the "DISCUSSION" the authors should compare and contrast the nuances of the case report with the literature review. 5. The uniqueness of the case has been justified by the authors. But the literature review should be extensive and should support the justification of the Case report.

RE-REVIEW REPORT OF REVISED MANUSCRIPT
