Inhibition of MMP-9 secretion by dimethyl sulfoxide and cyclic AMP in human monocytes

Darcy Denner, Maria L. D. Udan-Johns, and Michael R. Nichols

Department of Chemistry & Biochemistry, University of Missouri-St. Louis, St. Louis, MO, USA

Statistical analysis. Two-tailed paired Student t-tests were performed for experiments when applicable to determine the confidence limit at which two measurements were statistically different. Analysis was applied to each data set and p-values less than 0.05 were considered significant and designated with an asterisk in the figures (* $p < 0.05$).
