

**Name of Journal:** *Artificial Intelligence in Gastrointestinal Endoscopy*

**Manuscript NO:** 57881

**Manuscript Type:** MINIREVIEWS

**Techniques to integrate the artificial intelligence systems with medical information in gastroenterology**

Jin HY *et al.* Appliance of AI to GI endoscopy

Hong-Yu Jin, Man Zhang, Bing Hu

### Abstract

Gastrointestinal (GI) endoscopy is the central element in contemporary gastroenterology for it provides direct evidence to guide targeted therapy. To

## [The emerging role of AI in medicine, gastroenterology and ...](https://www.mayoclinic.org)

<https://www.mayoclinic.org> › medical-professionals › ... ▾

Mayo Clinic views AI as a set of **techniques** and technologies that serve to augment, rather than replace, human **intelligence**. AI excels in discerning patterns in complex data sets that may not be easily detected using human analysis. Patterns that are nuanced and highly multifactorial and those buried in an extremely large data set are often difficult for any individual human to navigate or detect.

## [Application of Artificial Intelligence to Gastroenterology ...](https://www.gastrojournal.org)

<https://www.gastrojournal.org> › article › S0016-5085(19)41412-1 › fulltext

Oct 05, 2019 · Since 2010, substantial progress has been made in **artificial intelligence** (AI) and its application to medicine. AI is explored in **gastroenterology** for endoscopic analysis of lesions, in detection of cancer, and to facilitate the analysis of inflammatory lesions or gastrointestinal bleeding during wireless capsule endoscopy. AI is also tested to assess liver fibrosis and to differentiate ...

<https://blog.a4m.com> › artificial-intelligence-in-gastroenterology ▾

Oct 25, 2019 · Artificial Intelligence Applications in Gastroenterology . The use of AI in medicine has now expanded to include gastroenterology, in which **computer algorithms** can help identify **bleeders**, **colorectal polyps**, and **angioectasias** with very high accuracy rates. In this field, clinicians are presented with vast datasets and utilize a host of **imaging devices** – ranging from colonoscopies to **capsule endoscopies** ...

### Artificial intelligence in medicine: Getting smarter one ...

<https://techxplore.com/news/2020-06-artificial...>

Jun 26, 2020 · Artificial intelligence and liver cancer. Liver cancer is complex, so doctors need to consider information from many different sources to determine how best to treat a particular patient. For example, to see the cancer, they rely on CT and MRI images. They must measure the tumor's size and try to understand how quickly it is growing.
