

To World Journal of Hepatology

August 14th, 2020

Dear Editor,

We are thankful for the opportunity to submit a revised version of the manuscript with the title “A comparison between Hepatocellular Carcinoma Prognostic Scores: a 10-year Single-Center Experience in North-East Italy and a Brief Review of the Current Literature” to World Journal of Hepatology. We appreciate the time and effort that the reviewers have dedicated to providing valuable feedback on our manuscript. We have been able to incorporate changes to reflect most of the suggestion provided by the reviewers. However, we did not edit Table 3 as suggested by the reviewer because it is the core of the manuscript, being the one where all the staging systems were reported.

We look forward to hearing from you and hope the manuscript can be accepted for publication in its revised version.

Sincerely,
Mauro Giuffrè, MD, MSc
