Certificate Service Confirmation

To Whom It May Concern,

With this email, I am verifying that I have amended comprehensively the manuscript entitled "HEV re-infection accelerates HCC development and relapse in a patient with liver cirrhosis: A case report" by Lin, XN, which is under consideration for publication in your journal. I have studied and worked in the Netherlands for more than 16 years where the working language is English. In the meantime, I am a member of Asian Editorial Board of a SCI journal, The Anatomical Record, providing proofreading and editing for the submitted manuscripts. With confidence, I would say that the abovementioned manuscript has achieved a grade at which no language polishing is further required.

Should you require any additional information, please do not hesitate to contact me.
