World Journal of Stem Cells

Sir,

This is with reference to the English Editing Certificate for non native speakers. English is our second language and here in Pakistan the medium of education is English throughout the primary and higher school education as well as in graduate schools. I have published many papers as corresponding author and I never consulted commercial services for English editing. I request you to kindly review the paper. I hope that you will find it appropriate for English language and grammar as well as scientific content.

I thank you for your kind support

Sincerely,

Asmat Salim, PhD
