## Mesenteric fibromatosis misdiagnosed with lymph node ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8097515>

Fibromatosis, also referred to as desmoid fibromatosis, was first described by Muller in 1838.1 This is a rare type of tumor derived from mesenchymal tissue with an annual incidence of only 1 per million, and accounts for 3% of all soft tissue tumors.2 Mesenteric fibromatosis (abdominal fibromatosis), has a

## Primary Desmoid Tumor of the Small Bowel: A Case Report ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8692092>

There are isolated case reports over the past 30 years of adults with mesenteric fibromatosis who had other risk factors for desmoid development in addition to their Crohn's disease [11-13]. Additionally, there is one report of a man with Crohn's disease but no other identifiable risk factors for mesenteric
