

**Name of Journal:** World Journal of Clinical Oncology

**Manuscript number:** 59376

**Manuscript type:** Retrospective study

Dear editors,

Below is a list of revisions that have been made to the manuscript entitled, "*Overall and Cause-Specific Survival for Mucoepidermoid Carcinoma of the Major Salivary Glands: Analysis of 2,210 Patients*".

1. The Author Contribution section has been added to the manuscript title page.
2. The grant from the Community Cancer Fund in Spokane, Washington was provided to support ongoing retrospective clinical research projects at Cancer Care Northwest.
3. Original, decomposable figures have been provided in a PowerPoint file in three different formats (EPS, EMF, SigmaPlot) and the file is entitled 59376-Figures.ppt.
4. Original, decomposable tables have been provided in a separate Word document entitled 59376-Tables.docx.
5. The Article Highlights section has been added to the end of the main text.
6. Special characters have been removed from the manuscript document.
7. The denotation for statistical significance of data has been edited to align with journal guidelines.
8. The Conflict-of-Interest Disclosure Form has been filled out and submitted.
9. The Copyright License Agreement form has been signed by all coauthors and submitted.
10. The equation for the 'estimate of standard error' in the Materials and Methods section of the paper was submitted in linear format as the submission website would not allow any other format. It can be converted back to professional equation format using the Math function of Microsoft Word.

Please let us know if additional information is needed.

Sincerely,

Zachary Taylor, MS3 (first-author)
