#### **SPECIFIC COMMENTS TO AUTHORS**

1. Since Cochayne is a inherited disease, family history, especially the situations of her parents should be illustrated. 2. Line 152, please explain the evidence or basis of the dose of 210 units of the drug. 3. Try to elucidate the possible mechanism of Botulinum neurotoxin type A the disease, and why its efficacy could only be maintained a short period. If it possible that intermitant administration of this drug could get sustained improvment? Try to demonstrate. improved.
