

Dear Editor,

Please find enclosed the edited manuscript in Word format.

Title: Clinical management of inflammatory bowel disease in the organ recipient

Author: Amedeo Indriolo, Paolo Ravelli

Name of Journal: World Journal of Gastroenterology

ESPS Manuscript NO: 5968

The manuscript has been improved according to the suggestions of reviewers:

- 1) Format has been updated
- 2) Revision has been made according to the suggestions of reviewer

00049305:

In this review paper, Dr. Indriolo et al. gave a concise review on clinical management of IBD in the organ transplant recipient population. It will definitely help physicians to better understand the pathogenesis of IBD after organ transplantation and clinical management.

00004594:

I enjoyed the paper of A. Indriolo and P. Ravelli on IBD in the organ recipient. This is a good review. The subject is interesting and the paper is well written, easy to read and concise. I have only one minor comment regarding the fact that 5-ASA is not efficient in all IBD but essentially in ulcerative colitis but not in Crohn's disease.

- 3) References and typesetting were corrected

Thank you again for publishing our manuscript in the Word Journal Gastroenterology

Sincerely yours,

Amedeo Indriolo, MD,

Department of Gastroenterology and Digestive

Endoscopy Unit, Papa Giovanni XXIII Hospital, Piazza OMS, 1, Bergamo, 24127, Italy
