SPECIFIC COMMENTS TO AUTHORS

Dear Author, I review the manuscript 59848 entitled "Changes in sleep parameters following biomimetic oral appliance therapy: Case report of severe obstructive sleep apnea" with Professor G. Dave Singh as corresponding author. I think it is an interesting case report but it may be improved with some important revisions. Authors should include at least one table with all the characteristics of the polysomnographies, in particular saturations, overall AHI, supin and non-supin AHI and ODI.
