

Dear Editor of World Journal of Gastroenterology:

WJG-60025 entitled "Repeatedly elevated  $\gamma$ -glutamyltransferase levels are associated with an increased incidence of digestive cancers: a population-based cohort study"

Thank you for your kind email, which informed us that our manuscript will be considered for minor revision. We have modified the paper according to the reviewer's comments. The point-by-point responses to the reviewer's comments are enclosed on separate pages. We hope that you will be satisfied with the revised version and that it will fulfil the requirements for publication in World Journal of Gastroenterology. We really appreciate the reviewer's comments and the opportunity to improve the manuscript.

Thank you very much.

Sincerely yours,

Min-Sun Kwak, MD.

## Reviewer: 1

### Comments to the Author

The manuscript is good and very informative. The manuscript needs a great deal of language polishing.

Minor comments:

1. Please replace figures with higher resolution images.

### Answer

Thank you for the reviewer's comment. According to the reviewer's comment, we replaced figures with higher quality images. We also attached original figure documents using PowerPoint as requested by editorial office.

2. English language needs significant correction.

### Answer

Thank you for the reviewer's comment. According to the reviewer's comment, we had additional 'English Editing Service' by native English-speaker, and we attached certificate form as below.

**Reviewer: 2****Comments to the Author**

Minor comments:

1. Please replace figures with higher resolution image. Figure still doesn't look professional. This looks like blurred figure. 2. Please provide the manuscript in track changes format and corrections highlighted.

**Answer**

Thank you for the reviewer's comment. 1. According to the reviewer's comment, I attached figures with higher resolution image in the text. 2. I attached manuscript in track changes format and corrected. Thank you very much.

Best regards,

Min-Sun Kwak
