Laparoscopic gastrectomy with and without prophylactic ...

<https://europepmc.org/article/PMC/PMC6697924> ▾

Aug 16, 2019 · Background. **Prophylactic** abdominal **drains** have been widely employed following gastrointestinal surgeries. After **gastric cancer** surgery, **prophylactic drains** were used in 57.7 to 62.8% of the **patients** in observational studies [1, 2] and routinely used in a randomized controlled trial (RCT) []. The purpose of the **prophylactic drain** is to remove intra-abdominal fluid collections and to detect ...

Feasibility of laparoscopic gastrectomy for elderly ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5584298>

Aug 01, 2017 · INTRODUCTION. A recent multicenter randomized and controlled trial by Hu et al demonstrated that **laparoscopic gastrectomy** (LG) with D2 lymph node dissection was more feasible than the conventional open distal **gastrectomy** for advanced **gastric cancer patients** []. In our previous meta-analysis, we demonstrated that minimal invasive surgery, **laparoscopic** and robotic surgeries were all ...
