This document is intended for healthcare facilities that are receiving or are preparing to receive patients with suspected or confirmed coronavirus disease 2019 (COVID-19). This includes healthcare facilities providing either inpatient or outpatient services. It should be used to guide implementation of procedures at triage that can be effective at preventing transmission of SARS-CoV-2 (COVID-19 virus) to patients and healthcare workers (HCWs). This document was developed based on current data on COVID-19 and e...

## Hospital Preparedness Checklist: 2019-nCoV | CDC

<https://www.cdc.gov/coronavirus/2019-ncov/hcp/hcp-hospital-checklist.html> ▾

Feb 11, 2020 · Planning for community spread of COVID-19 is critical for maintaining healthcare services during the ongoing COVID-19 pandemic. All U.S. hospitals should be prepared for the possible arrival of patients with COVID-19. All hospitals should ensure their staff are trained, equipped and capable of practices needed to:
