[Prognostic value of negative lymph node count in patients ...](#)

<https://journals.lww.com/jbioxresearch/Fulltext/...>

Recent studies show that the number of **negative lymph nodes** (NLNs) is a **prognostic** indicator in various cancers, including breast **cancer**, **rectal cancer**, head and neck squamous cell carcinoma, and ampulla of Vater carcinoma. However, it is unknown whether the NLN count is an independent **prognostic** ...
