

**Duodenal obstruction following acute pancreatitis caused ...**<https://europepmc.org/articles/PMC3471120> ▾

Oct 01, 2012 · Small bowel obstruction is a rare complication usually due to the migration of gastric bezoars. It could also be caused by formation of primary bezoars in the small bowel in association with underlying diseases such as diverticulum, stricture or tumor. Acute pancreatitis secondary to a bezoar is rare, but can present as a possible complication. However, duodenal obstruction by a diverticular bezoar following acute pancreatitis ...
