Genetic analysis of *Vibrio parahaemolyticus* intestinal ...

<https://www.pnas.org/content/113/22/6283> ▾

May 31, 2016 · A spontaneous streptomycin-resistant mutant of *V. parahaemolyticus* RIMD 2210633, *V. parahaemolyticus* Sm R, was used for all experiments, and mutations were constructed in the Sm R background except when specified otherwise. Strains were cultured at 37 °C in LB or on LB-agar plates unless otherwise specified.

Functional Characterization of Two Type III Secretion ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC523034>

Vibrio parahaemolyticus, one of the human-pathogenic vibrios, is a gram-negative halophilic bacterium that naturally inhabits marine and estuarine environments. The organism causes three major types of clinical illness: gastroenteritis (the most common illness), wound **infections**, and septicemia (4, 7, 10, 16). Almost all of the clinical *V. parahaemolyticus* isolates from diarrheal patients show ...

The Hydrophilic Translocator for *Vibrio parahaemolyticus* ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3434562>

Typically, **infection** of the gastrointestinal tract with *V. parahaemolyticus* manifests as acute, self-limited watery diarrhea, which is often accompanied by abdominal pain and **vomiting**. Additionally, **intestinal biopsy samples** from patients have revealed disruption of the intestinal epithelium and the presence of an acute inflammatory response .
