## Knowledge Domain and Emerging Trends in Visual Hallucination Research: A Scientometric Analysis

Zhong M *et al.* **Analysis** of VH Research

### Abstract

#### BACKGROUND

Visual hallucination (VH) refers to a spontaneous visual perception without corresponding external stimuli and often occurs in ophthalmological and neuropsychiatric disorders. It is found to be associated with poor life quality, increased patient hospitalization and nursing home admission. Up to now, there lack a scientometric analysis of research on VH.
