Novel Technique for the Treatment of Coronary Artery ...

<https://www.sciencedirect.com/science/article/pii/S0828282X20302725>

Aug 01, 2020 · Coronary artery perforation (CAP) is a rare complication of percutaneous coronary intervention (PCI); its occurrence rate is estimated to be 0.4%-0.7% of all PCIs. 1 Guidewire-induced perforations are a common cause of CAP, especially when polymer-coated wires are used. 2 Although prolonged balloon inflations are often successful in stopping blood ...

### Rotastenting in an anomalously arising right coronary ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3861147>

Rotational atherectomy is contraindicated in dissected coronary arteries since it can lead to progression of the dissection or perforation. In our case, the right coronary artery (RCA) arose anomalously from the left coronary sinus. The lesion in the RCA was an undilatable calcified one.
