Efficacy and Safety of Apixaban, Dabigatran, Rivaroxaban ...

<https://www.ahajournals.org/doi/10.1161/JAHA.117.008150>

Introduction. **Atrial fibrillation (AF)** is the most common cardiac arrhythmia with a global prevalence of 2% to 3%. AF significantly increases the risk of thromboembolic events and death. 1 Oral anticoagulants like vitamin K antagonists (eg, **warfarin**) or non-vitamin K antagonist oral anticoagulants (NOACs; eg, **dabigatran, rivaroxaban, apixaban, and edoxaban**) are indicated for stroke/systemic ...

Meta-analysis of Efficacy and Safety of New Oral ...

<https://pubmed.ncbi.nlm.nih.gov/22537354>

New oral anticoagulants, including **apixaban, dabigatran, and rivaroxaban**, have been developed as alternatives to **warfarin**, the standard oral anticoagulation therapy for **patients with atrial fibrillation (AF)**. A **systematic review and meta-analysis** of randomized controlled trials was performed to compare the **efficacy and safety** of new oral ...

Effectiveness and Safety of Dabigatran, Rivaroxaban, and ...

Background: The introduction of non-vitamin K antagonist oral anticoagulants has been a major advance for stroke prevention in atrial fibrillation, however, outcomes achieved in clinical trials may not translate to routine practice. We aimed to evaluate the effectiveness and safety of dabigatran, rivaroxaban, and apixaban by comparing each agent with warfarin.

Comparative effectiveness and safety of non-vitamin K ...

Jun 16, 2016 - Objective To study the effectiveness and safety of the non-vitamin K antagonist oral anticoagulants (novel oral anticoagulants, NOACs) dabigatran, rivaroxaban, and apixaban compared with warfarin in anticoagulant naive patients with atrial fibrillation. Design Observational nationwide cohort study. Setting Three Danish nationwide databases, August 2011 to October 2015.

Comparative effectiveness of warfarin, dabigatran ...

Aug 26, 2019 - Objective To compare effectiveness and safety of warfarin and the direct oral anticoagulants (DOAC) dabigatran, rivaroxaban and apixaban in non-valvular atrial fibrillation in routine care. Methods From nationwide registries, we identified treatment-naive patients initiating warfarin, dabigatran, rivaroxaban or apixaban for non-valvular atrial fibrillation from July 2013 to December ...
