

Dear reviewer and editor:

I am very glad to receive your reply, I have made modifications according to your requirements, the contents are as follows:

**Reviewer:** It is necessary to correct the repetition in the penultimate period of the Discussion ("In the present study, This Study..."). It is also necessary to review the References, some are underlined others are not.

**Answer reviewer:** In the discussion section, I will delete the repeated content. I carefully checked the references, revised them according to the format required by the journal, and deleted the irrelevant references.

**Answer editor:**

- (1) I have uploaded the approved grant application form(s) or funding agency copy of any approval document(s)
- (2) I have provided decomposable Figures organize them into a single PowerPoint file, and submit as “**61979-Figures.ppt**” on the system and uploaded to the file destination of “Image File”
- (3) I've added the “Article Highlights” section at the end of the main text
- (4) I carefully checked the references, revised them according to the format required by the journal, and deleted the irrelevant references
- (5) In the discussion section, I will delete the repeated content

In addition, it needs to be explained that the data in my article are all in

the form of pictures without tables, so the Table File cannot be provided.
