SPECIFIC COMMENTS TO AUTHORS

In this paper, the authors retrospectively included and analyzed the clinical information and treatment history of 11 patients diagnosed with Paget's disease of bone in a single centre. It is of interest to recognize the more detailed clinical information of PDB in Chinese population. However, there remained some minor problem needed to be solved.

1. What's the ratio of Monostotic and polystotic bone deformation in the 11 patients? 2.It could be better to take the treatment and follow up of each patients summarized in a table. 3. In line 93, the tumors should be tumours 4.In line 97, the localised should be localized 5.In line 51, what is exact number of most of 11?
