Jul 01, 2020 · Acute liver failure (ALF) is a common emergency in hepatology practice associated with high short-term mortality. The term is applied to a clinical presentation of encephalopathy within a few weeks after the onset of liver disease with associated coagulopathy. 1, 2 Epidemiology and presentation of ALF, as seen in India, is considerably different from that described in the Western literature. 3 ...

Jul 19, 2006 · Usually, thrombocytopenia was not severe and without any bleeding symptoms. In the literature, one report is available on a patient who had to receive platelet transfusion because of platelet counts  $<20 \times 10^3/\text{mm}^3$  and severe bleeding. Sleiman et al. reported a case of fatal pulmonary hemorrhage due to VPA-induced thrombocytopenia.
