## LANGUAGE EDITING CERTIFICATE

To whom it may concern:

I certify that I have edited the manuscript originally entitled **Borderline resectable for colorectal liver metastases – Present status and future perspective**, by Yuki Kitano and colleagues; that the linguistic quality of the writing in the manuscript is **excellent**; and that the manuscript is now ready for appraisal by scientific reviewers and editors prior to publication.

I am a UK-based, native English-speaking professional editor, with a PhD in virology and over twenty years' experience of editing research papers in diverse fields of biomedical science. I have edited more than 600 papers, many of which have been published in leading journals including *Nature* and *Science*.

Yours faithfully,

**Ian R.L. Smith, Ph.D.**  
Editor and founder,  
*Elite Scientific Editing*
