Adult pancreatic hemangioma in pregnancy – concerns and ...<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4628376>

Although reports have described a number of anecdotes involving worrisome histories of pregnant women with malignant tumors, including carcinomas of the pancreas [16, 30, 31], pancreatic neuroendocrine tumors, and bleeding neoplasms, or spontaneous SPEN rupture, these cases are generally exceptions rather than the rule. Nevertheless, given the objective of providing optimal care to both mother and child, the determination of an appropriate treatment schedule for any young pregnant woman ...
