Differential diagnosis of double site intussusception in ...

<https://casereports.bmj.com/content/2015/bcr-2015-212337>

Nov 18, 2015 · **Abdominal pain** in a **teenage girl** is common; however, thorough history and examination can often distinguish a more rare or sinister diagnosis. We present a case of a 15-year-old girl presenting with **abdominal pain**, who was subsequently diagnosed with **double intussusception** secondary to her previously unrecognised **Peutz-Jeghers syndrome (PJS)**.

Abstract

BACKGROUND

Peutz-Jeghers syndrome (PJS) is a genetic disorder characterized by the development of gastrointestinal hamartomatous polyps and mucocutaneous melanin pigmentation. These patients are at risk of complications such as intussusception. Intussusception is a
