**Subject: Non-Native Speakers of English Editing Certificate**

I, Pr Christophe Breton, full Professor, the corresponding author of the review n° 62713 entitled « Maternal obesity as a risk factor for developing diabetes in offspring: an epigenetic point of view » declare that two authors (Simon Lecoutre and me) of the present manuscript are non-native English speakers but the manuscript has been carefully proofread and edited by Dr Salwan Maqdasy who is a native English speaker.
