### Improving the quality of liver resection: a systematic ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4333781>

Liver resection is a high-risk treatment. 3 Risk is a subjective concept used to determine the nature, likelihood and acceptability of the harm associated with a choice or an intervention. 34 The aim of this **systematic review** was to amalgamate the literature on how the risk associated with **liver resection** has been perceived and evaluated. A ...
