#### **SPECIFIC COMMENTS TO AUTHORS**

In their manuscript entitled 'Pancreatic adenocarcinoma: A review of recent paradigms and advances in epidemiology, clinical diagnosis and management', authors and colleagues found that s intended to improve the understanding of the readers with respect to the latest updates of PDA which may help to trigger new research ideas and bring out better management decisionsThis is potentially interesting study. 1.There are many spelling and grammar mistakes in the manuscript. It would be better for the author to find a native speaker or professional company to check and approve the manuscript. 2.Some references are too old.

#### **SPECIFIC COMMENTS TO AUTHORS**

This manuscript is an excellent overview. The authors describe recent advances in pancreatic cancer: incidence rates, mortality and overall trends, possible molecular-level etiology and pathogenesis, screening and diagnosis, surgical treatment, neoadjuvant therapy, post-operative adjuvant therapy, and systemic therapy for advanced metastatic disease and so on. The article is informative, and it summarizes the overall epidemiology and treatment characteristics of pancreatic cancer. The manuscript is concise and logical. The data presented support the conclusions of the article. This article provides a very valuable comprehensive program of diagnosis and treatment for clinicians. This review is of great theoretical and clinical value.

#### **SPECIFIC COMMENTS TO AUTHORS**

Thank you for giving me the opportunity to review the manuscript: "Pancreatic adenocarcinoma: A review of recent paradigms and advances in epidemiology, clinical diagnosis and management". It is a very interesting review that develops the latest information on pancreatic cancer, regarding epidemiology, etiopathogenesis, surgical management and systemic therapy. It is an excellent overview. English language should be improved.
