#### **SPECIFIC COMMENTS TO AUTHORS**

The review manuscript written by Li-Guang Fang, Quan Zhou describes the gastrointestinal and liver manifestations of COVID-19, mainly on symptomatic and radiologic findings. There are few reviews on those theme and it has thus significant information on the management of patients with COVID-19. However, there are some concerns that need to be addressed. Minor points, 1. The severity of the gastrointestinal and liver manifestations is unclear. The authors should add comments on that point in addition to the impact of those complications in the management of patients with COVID-19. 2. The mechanism of fatty change of the liver should be discussed.

#### **SPECIFIC COMMENTS TO AUTHORS**

Dear Authors I read your article with many attention. The article is a quite complete review of gastrointestinal and liver manifestations of COVID-19. MY-suggestion The title need to be more fascinating; the article necessitate of some image to capture the reader; Please read this lecture: medRxiv preprint doi: <https://doi.org/10.1101/2020.08.14.20168088>; this version posted August 16, 2020. The copyright holder for this preprint (which was not certified by peer review) is the author/funder, who has granted medRxiv a license to display the preprint in perpetuity. It is made available under a CC-BY-NC-ND 4.0 International license . Robust, reproducible clinical patterns in hospitalised patients with COVID-19. The English is good; The references are good; Best Regards
