

Thank you very much for giving us an opportunity to revise this paper. We have considered comments from reviewers carefully and have made revisions to address their concerns. These comments are all valuable and very helpful for revising and improving our paper, as well as the important guiding significance to our researches. I hope this revised version is acceptable for publication. Sincerely, MangKe

**Comments of reviewers:**

This is a case report for a patient with pelvic lipomatosis with cystitis glandularis was treated by transurethral resection of bladder tumour (TUR-BT) and oral administration of celecoxib. This case reports unique findings and is theoretically based on the current literature. The subject is very important to clinical Urology practice. The case is well written and provides useful information for the readers. There are however some additional information needed minor editing and revision of the manuscript. Line 85: please correct "with" Line 220: do you mean "sensitivity"? for the literature review part, I would suggest to include a table for the previously reported cases.

**Response:** We have considered comments from reviewers carefully and have made revisions to address their concerns.

Line 85: please correct "with"

**Response:** Done.

Line 220: do you mean "sensitivity"?

**Response:** We are very sorry that it's a misspelling, we actually mean sensitivity.

I would suggest to include a table for the previously reported cases."

**Response:** We have added a table for the previously reported cases and have uploaded it. Moreover, we have made an audio core tip file describing our final core tip following acceptable file formats: .mp3. Sincerely, Mang Ke
