SPECIFIC COMMENTS TO AUTHORS

Page 2, 4th line from bottom: “The main target for this virus are the lungs, ...” should be “The main target for this virus is the lungs, ...” or “The main targets for this virus are the lungs, ...” Page 4, 2nd paragraph: Authors state “It has been hypothesized that MSC-based therapy for COVID-19 patients could prevent the production of a cytokine storm by activating the immune system, and promoting organ repair[24].” But, Reference 24 is from the year 2014. Page 10: “Even if liver injury in COVID-19 patients has been considered marginal, the incidence of liver injury in COVID-19 patients ranges from 14.8% to 53% ...” Why “marginal”? Page 11: Probably, a new paragraph should start after “(Figure 1)”. Page 12: Probably, a new paragraph should start after “Reference 110”. Page 12: The Conclusions section should be rewritten by more succinctly and concisely stating conclusions.
